Rig Management

Rig management encompasses a broad range of activities covering the recruitment and selection, deployment, training, crew costs monitoring and ongoing management of the officers and ratings engaged on vessels / Rigs under our management.

We have one of best seafarer retention rates in the industry. This is achieved through having proper recruitment, remuneration, continual training and performance appraisal systems in place.

We maintain a computerized Data Bank of well over 1000 oilfield personnel, who have been screened and short-listed, so that they can be available at short notice. This clearly gives us a competitive edge over the competition.

Rig Chartering

Sell & Purchase

Delta regional and global direct and close contact with Rig Owners, Charterers and Brokers empowers us to find right vessel in required place at most competitive rate to pursuit our clients' requirement.

Our Sell & Purchase division supported our owners in acquiring the rigs at most competitive market price.

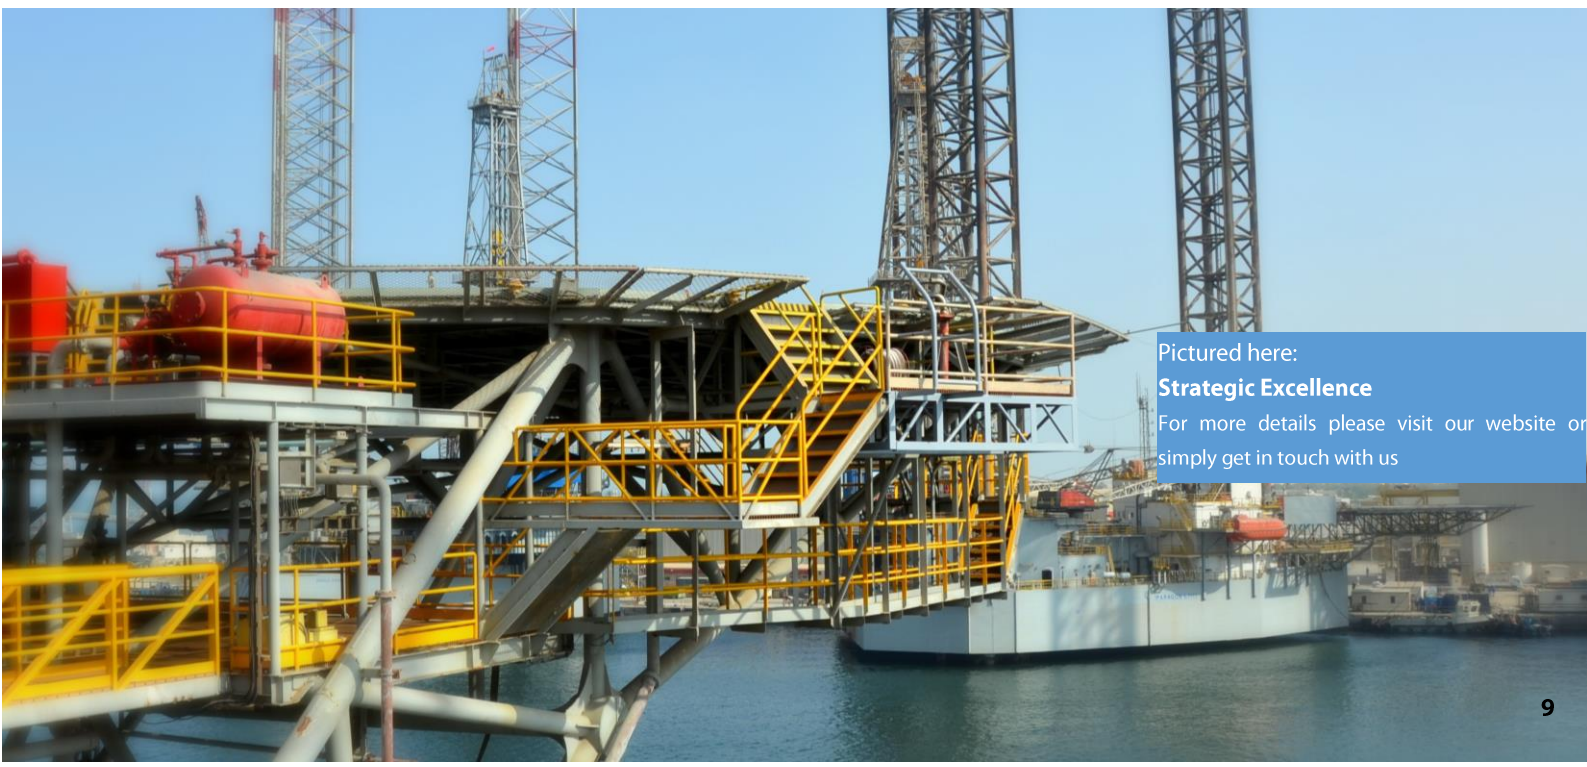

We have also converted, refurbished and updated several jack-up rigs for which we had drilling or accommodation management contracts, including the UIE1, Strategic Excellence, United 1 and Heron. Some of the refit projects were successfully completed in the UAE, on time and within budget constraints, and the rigs are all actively in operations.

Rig Supply Chain

Our supply chain is fully integrated with our on-board PMS to ensure that the needs of rigs under our management are fully served.

Delta supply department have been expertly developed with a key focus on comprehensive, transparent, strategic and effective procurement of A - Z requirement of managed rigs / vessels:

- Machinery and Equipment Spares
- Drilling Tools
- Deck, Engine, Electrical Tools & Stores
- Fuel, Fresh Water, Hydraulic and Lubricating oil and other Consumables
- Provisions and Cabin Stores
- Publication, Stationary Stores
